

5.0 DETERMINATION

On the basis of this initial evaluation:

- I find that the proposed project **COULD NOT** have a significant effect on the environment, and a **NEGATIVE DECLARATION** will be prepared.
- I find that, although the proposed project could have a significant effect on the environment, a **MITIGATED NEGATIVE DECLARATION** is appropriate (i) because all significant and unavoidable effects of the proposed project have been previously examined in a Program EIR prepared pursuant to CEQA Guidelines section 15176, and (ii) because, with respect to any potentially new or additional significant environmental effects associated with the proposed project that have not been previously examined in the Program EIR, revisions to the proposed project have been made by or agreed to by the project proponents that clearly reduce such new or additional significant environmental effects to less-than-significant levels. In addition, I find that a **MITIGATED NEGATIVE DECLARATION** is also appropriate because the proposed project would not cause any significant environmental effects (i) that are "peculiar to the project or the parcel," (ii) that were not analyzed as significant effects in the prior EIR for the Rancho Cordova General Plan, or (iii) that, due to substantial new information not known at the time the Program EIR was certified, are more severe than discussed in the prior Program EIR. [See State CEQA Guidelines, § 15183, subd. (c)]
- I find that the proposed project **MAY** have a significant effect on the environment that cannot be reduced in effect by changed to the proposed project, and an **ENVIRONMENTAL IMPACT REPORT** is required.
- I find that the proposed Project **MAY** have a significant effect(s) on the environment, but one or more of such significant effects: 1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and 2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An **ENVIRONMENTAL IMPACT REPORT** is required, but it must analyze only the effects that remain to be addressed.
- I find that although the proposed project could have a significant effect on the environment, all potentially significant effects: (a) have been analyzed and adequately addressed in an earlier EIR pursuant to applicable standards, or (b) have been avoided or mitigated pursuant to that earlier EIR, previous Mitigated Negative Declaration, or this Subsequent Mitigated Negative Declaration, including revisions or mitigation measures that are imposed upon the proposed project.
