

I find that the proposed project COULD NOT have a significant effect on the environment, and a NEGATIVE DECLARATION will be prepared. I find that, although the proposed project could have a significant effect on the environment, a MITIGATED NEGATIVE DECLARATION is appropriate because any potentially significant environmental effects associated with the proposed project have been reduced to a less than significant level by revisions to the proposed project. Therefore, a MITIGATED NEGATIVE DECLARATION will be prepared. I find that the proposed project MAY have a significant effect on the environment that cannot be reduced in effect by changed to the proposed project, and an ENVIRONMENTAL IMPACT REPORT is required. I find that the proposed Project MAY have a significant effect(s) on the environment, but an or more of such significant effects: 1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and 2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed. I find that although the proposed project could have a significant effect on the environment, all potentially significant effects: (a) have been analyzed and adequately addressed in an earlier EIR, pursuant to applicable standards, or (b) have been avoided or mitigated pursuant to that earlier EIR, previous Mitigated Negative Declaration, including revisions or mitigation measures that are imposed upon the proposed project. Signature: Date: Date:	On the basis of this initial evaluation:	
a MITIGATED NEGATIVE DECLARATION is appropriate because any potentially significant environmental effects associated with the proposed project have been reduced to a less than significant level by revisions to the proposed project. Therefore, a MITIGATED NEGATIVE DECLARATION will be prepared. I find that the proposed project MAY have a significant effect on the environment that cannot be reduced in effect by changed to the proposed project, and an ENVIRONMENTAL IMPACT REPORT is required. I find that the proposed Project MAY have a significant effect(s) on the environment, but ane or more of such significant effects: 1) has been adequately analyzed in an earlier document pursuant to applicable legal standards, and 2) has been addressed by mitigation measures based on the earlier analysis as described on attached sheets. An ENVIRONMENTAL IMPACT REPORT is required, but it must analyze only the effects that remain to be addressed. I find that although the proposed project could have a significant effect on the environment, all potentially significant effects: (a) have been analyzed and adequately addressed in an earlier EIR pursuant to applicable standards, or (b) have been avoided or mitigated pursuant to that earlier EIR, previous Mitigated Negative Declaration, or this Subsequent Mitigated Negative Declaration, including revisions or mitigation measures that are imposed upon the proposed project.
