**Q26 Are there other actions you think the City should take to reduce emissions from these activities? If so, please specify in the box below.**

Answered: 6   Skipped: 4

#	RESPONSES	DATE
1	Install a monorail elevated transportation system. The novelty alone would encourage ridership. It can be high speed and not be subjected to competing street traffic, etc. Federal, State, and Community Enhancement Funds can be made available to initiate a project.	11/16/2022 6:42 PM
2	Get rid of gas blowers. What is the true trade-off for electric vehicles when the batteries die. How toxic are the batteries. Who pays the costs for the charging stations.	11/16/2022 6:35 PM
3	Incentivizing local businesses to have "shopping" or "travel" days to encourage completing all commuting/traveling for regular needs to get done at one time rather than driving daily to make trips.	11/16/2022 6:24 PM
4	More infill less sprawl, higher density combined with mixed office/residential, with dedicated shuttle service, bike lanes etc	11/16/2022 6:22 PM
5	I think we need a whole new way of thinking instead of a process that was implemented in 1905	11/16/2022 6:10 PM
6	Require developers/owners to increase the amount of electric vehicle chargers included all in new/existing multi-family housing. Establish "mobility hubs" throughout the city, leveraging existing land use densities of multi-family housing clusters along designated TOD corridors (Folsom Blvd, Coloma Rd, International Drive)	11/16/2022 5:39 PM

**Q27 Requiring existing buildings to use energy more efficiently or to decrease use of natural gas (for example, by establishing targets for buildings to electrify by specific dates, requiring residential rentals to achieve minimum efficiency standards, requiring electrification of certain building systems at the time of major renovations or when a building is for sale).**

Answered: 9 Skipped: 1

	1 (I DON'T SUPPORT) (1)	2 (2)	3 (3)	4 (4)	5 (I FULLY SUPPORT) (5)	TOTAL	WEIGHTED AVERAGE
Level of Support	22% 2	11% 1	22% 2	22% 2	22% 2	9	3.11

BASIC STATISTICS				
Minimum	Maximum	Median	Mean	Standard Deviation
1.00	5.00	3.00	3.11	1.45

**Q28 Providing technical, financial, and outreach assistance to encourage building owners and tenants to use energy more efficiently and switch from gas- to electric powered systems and appliances.**
