Project Description: The City of Rancho Cordova is proposing to construct a new pedestrian overcrossing structure over U.S. 50, offset to the east of the existing Zinfandel Overcrossing and establish a Class 1 bicycle and pedestrian trail from White Rock Road to Folsom Boulevard. The proposed overcrossing structure would be located perpendicular to US 50, and just east of, Zinfandel Drive, and would be designed according to existing City, Caltrans, AASHTO, and ADA standards. The proposed pedestrian-bicycle overcrossing would be up to 625 feet long and would include a width of 16 feet. The structure would be designed to maintain a minimum vertical clearance of 18 feet, 6 inches over US 50 and the eastbound on-ramp. The proposed Class I bicycle and pedestrian trail would be constructed along the eastern edge of Zinfandel Drive from White Rock Road to US 50 to Olson Drive and then transition to the western edge of Zinfandel Drive to Folsom Boulevard. Single span bridges would be constructed to separate bicycle and pedestrian traffic from vehicular traffic at Gold Center Drive and U.S. 50 ramps.
